NEWS RELEASE

December 4, 2012

Tinka Secures Surface Agreement With Pillao Community For Colquipucro Project, Peru

Vancouver, Canada - Tinka Resources Limited (the “Company”), (TSXV:TK) (Frankfurt:TLD) (OTCPK:TKRFF), announces that the Company has signed an agreement with the Pillao community, providing surface access for the Colquipucro project, west-central Peru. The agreement grants the Company access for all exploration activities, including drilling, for the next thirty months.

Mr Carter said: “We are extremely pleased with this positive decision by the community and look forward to working with them, not only in the development of the Colquipucro project, but in the development of sustainable projects and social programs for the community as a whole. As a result of this major step, drilling is scheduled to recommence at Zone 1 in January.”

Drilling will consist of approximately 20 in-fill holes at Zone 1 with the objective of both increasing the silver resources and upgrading the resource classification from the *inferred* to *indicated* category. At the same time, with community support, an amendment to the existing drill permit will be lodged to include further drill platforms to test the north-west extension of Zone 1 (see press release dated September 17, 2012)

Surface work will also continue on the Chaucha zone, 1.5 km to the north, where strongly oxidized, gossanous limestone contains highly elevated levels of zinc, lead and silver.

The Company's Qualified Person, John Nebocat (P.Eng.) has reviewed and approved the contents of this news release.

On behalf of the Board,

“**Andrew Carter**”
Andrew Carter, President &
